## THE FOUNDATION OF TRIATHLETES

A special welcome is extended to the Foundation of Triathletes who are visiting with us today. The Foundation of Triathletes Incorporated is a non-profit organization managed by nine officers. One of its aims is to encourage people to become and remain active as we were created to be. To do this, its exercise

program continues to develop over the years and is centered around the upliftment of people physically mentally and spiritually. Its core activities are structured into three segments of aerobic movements of brisk walking—jogging—running—swimming and biking with other activities incorporated. Also it is people friendly, driven by the individual interest level of recreation, friendly competition and at the centre of its program is a healthy way of living. We welcome the young and not so young to participate at its Fort Charlotte home grounds from March to November each year when we close out with an Awards Presentation.
